EPILEPSY RESEARCH

Contents Volume 26 (1997)

Number 1 – December 1996

SPECIAL ISSUE

Papers presented at the

Third Workshop of the Neurobiology of Epilepsy (WONOEP III)

"Mechanisms of Chronic Models of Epilepsy"

Kewarra Beach, Australia, 29 August–2 September 1995

Preface 1

Genetic models

Developmental and seizure-related regional differences in immediate early gene expression and GABAergic abnormalities in the brain of EL mice
Y.L. Murashima, K. Kasamo and J. Suzuki (Japan) 3

Analysis of the kinetics of synaptic inhibition points to a reduction in GABA release in area CA1 of the genetically epileptic mouse, *El*
J.D.C. Lambert, Y. Fueta, A. Roepstorff and M. Andreasen (Denmark, Japan) 15

Anticonvulsant effect of reduced NMDA receptor expression in audiogenic DBA/2 mice
A.G. Chapman, V.L. Woodburn, G.N. Woodruff and B.S. Meldrum (UK) 25

Cortical versus thalamic mechanisms underlying spike and wave discharges in GAERS
G. Avanzini, M. De Curtis, S. Franceschetti, G. Sancini and R. Spreafico (Italy) 37

No loss in total neuron number in the thalamic reticular nucleus and neocortex in the genetic absence epilepsy rats from Strasbourg
A. Sabers, A. Møller, J. Scheel-Krüger and A. Mouritzen Dam (Denmark) 45

In vitro studies of epileptogenesis

Neuronal migration disorders and epilepsy: a morphological analysis of three surgically treated patients
G. Battaglia, P. Arcelli, T. Granata, M. Selvaggio, F. Andermann, F. Dubeau, A. Olivier, D. Tampieri, J.G. Villemure, M. Avoli. G. Avanzini and R. Spreafico (Italy, Canada) 49

Review of the role of inhibitory neurons in chronic epileptic foci induced by intracerebral tetanus toxin
J.G.R. Jefferys and M.A. Whittington (UK) 59

Characterization of neuronal migration disorders in neocortical structures: I. Expression of epileptiform activity in an animal model
H.J. Luhmann and K. Raabe (Germany) 67

Epiletiform activity in the piriform cortex of the in vitro isolated guinea pig brain preparation
M. De Curtis, G. Biella and M. Forti (Italy) 75

Brain injury-induced enhanced limbic epileptogenesis: anatomical and physiological parallels to an animal model of temporal lobe epilepsy
D.A. Coulter, A. Rafiq, M. Shumate, Q.Z. Gong, R.J. DeLorenzo and B.G. Lyeth (USA) 81

Status epilepticus and epileptogenesis

The model of pentylenetetrazol-induced status epilepticus in the immature rat: short and long-term effects
A. Nehlig and A. Pereira de Vasconcelos (France) 93

Pentylenetetrazol-induced kindling: early involvement of excitatory and inhibitory systems
L. Rocha, M. Briones, R.F. Ackermann, B. Anton, N.T. Maidment, C.J. Evans and J. Engel Jr
(Mexico, USA) 105
Developmental aspects of the pilocarpine model of epilepsy
M.R. Priel, N. Ferriera dos Santos and E.A. Cavalheiro (Brazil) 115
Spontaneous seizures preferentially injure interneurons in the pilocarpine model of chronic spontaneous seizures
L.E.A.M. Mello and L. Covolan (Brazil) 123
Hypoxia-induced hyperexcitability in vivo and in vitro in the immature hippocampus
F.E. Jensen and C. Wang (USA) 131

Limbic seizures
Introduction to temporal lobe epilepsy
J. Engel Jr (USA) 141
The pathogenic and progressive features of chronic human hippocampal epilepsy
G.W. Mathern, T.L. Babb, J.P. Leite, J.K. Pretorius, K.M. Yeoman and P.A. Kuhlman (USA) 151
Astrocytes in kindling: relevance to epileptogenesis
M. Khurgel and G.O. Ivy (Canada) 163
Neuroethological and morphological (Neo–Timm staining) correlates of limbic recruitment during the development of audiogenic kindling in seizure susceptible Wistar rats
N. Garcia-Cairasco, H. Wakamatsu, J.A.C. Oliveira, E.L.T. Gomes, E.A. Del Bel and L.E.A.M. Mello (Brazil) 177
Glutamate AMPA receptors in the fascia dentata of human and kainate rat hippocampal epilepsy
T.L. Babb, G.W. Mathern, J.P. Leite, J.K. Pretorius, K.M. Yeoman and P.A. Kuhlman (USA) 193
Vulnerability and plasticity of the GABA system in the pilocarpine model of spontaneous recurrent seizures
C.R. Houser and M. Esclapez (USA) 207
Neuron loss, mossy fiber sprouting, and interictal spikes after intrahippocampal kainate in developing rats
J.P. Leite, T.L. Babb, J.K. Pretorius, P.A. Kuhlman, K.M. Yeoman and G.W. Mathern (USA, Brazil) 219
Perihinal cortex involvement in limbic kindled seizures
M.E. Kelly and D.C. McIntyre (Canada) 233
Comparison of seizure related amino acid release in human epileptic hippocampus versus a chronic, kainate rat model of hippocampal epilepsy
C.L. Wilson, N.T. Maidment, M.H. Shomer, E.J. Behnke, L. Ackerson, I. Fried and J. Engel Jr. (USA) 245
Chronic epilepsy with damage restricted to the hippocampus: possible mechanisms
C.G. Wasterlain, Y. Shirasaka, A.M. Mazarati and I. Spigelman (USA) 255
Functional changes in somatostatin and neuropeptide Y containing neurons in the rat hippocampus in chronic models of limbic seizures
A. Vezzani, C. Schwarzer, E.W. Lothman, J. Williamson and G. Sperk (Italy, Austria, USA) 267
Rapid and transient increases in cellular immediate early gene and neuropeptide mRNAs in cortical and limbic areas after amygdaloid kindling seizures in the rat
T.C.D. Burrazin and A.L. Gundlach (Australia) 281
Kindling with clozapine: behavioral and molecular consequences
J.R. Stevens, D. Denney and P. Szot (USA) 295

Number 2 – January 1997

Research Reports
The mechanisms of the ocular autonomic dysfunction during the intracarotid amytal suppression test
J.C. DeToledo and R.E. Ramsay (USA) 309
Decrease in somatostatin-immunoreactive neurons in the rat amygdaloid complex in a kindling model of temporal lobe epilepsy
J. Tuunanen, T. Halonen and A. Pitkänen (Finland) 315
Generation of lipid radicals in the hippocampal extracellular space during kainic acid-induced seizures in rats
Y. Ueda, H. Yokoyama, R. Niwa, R. Konaka, H. Ohya-Nishiguchi and H. Kamada (Japan) 329
Acute effects of MK801 on kainic acid-induced seizures in neonatal rats
C.E. Stafstrom, P. Tandon, A. Hori, Z. Liu, M.A. Mikati and G.L. Holmes (USA) 335
Influence of ethosuximide on valproic acid serum concentrations
R.A. Sälke-Kellermann, T. May and H.E. Boenigk (Germany) 345

Possible mechanisms inducing granule cell dispersion in humans with temporal lobe epilepsy
D. Lurton, L. Sundstrom, C. Brana, B. Bloch and A. Rougier (France, UK) 351
Evidence for increased cellular uptake of glutamate and aspartate in the rat hippocampus during kainic acid seizures: A microdialysis study using the 'indicator diffusion' method
T. Bruhn, T. Christensen and N.H. Diemer (Denmark) 363
Epileptiform activity but not synaptic plasticity is blocked by oxidation of NMDA receptors in a chronic model of temporal lobe epilepsy
O. Quesada, J.C. Hirsch, H. Gozlan, Y. Ben-Ari and C. Bernard (France) 373
Mutual interaction between remacemide hydrochloride and phenytoin
J.P. Leach, J. Girvan, V. Jamieson, T. Jones, A. Richens and M.J. Brodie (UK) 381
Randomized trial comparing vigabatrin and hydrocortisone in infantile spasms due to tuberous sclerosis
C. Chiron, C. Dumas, I. Jambaqué, J. Mumford and O. Dulac (France, UK) 389

Number 3 – March 1997

Research reports
In situ hybridization for c-*fos* mRNA reveals the involvement of the superior colliculus in the propagation of seizure activity in genetically epilepsy-prone rats
C.E. Ribak, A.L. Manio, M.S. Navetta and C.M. Gall (USA) 397
Effects of acute treatment and long-term treatment with MK-801 against amygdaloid kindled seizures in rats
M. Yoshida, N. Ohkoshi and N. Tsuru (Japan) 407
Professional privilege, driving and epilepsy, the doctor's responsibility
R.G. Beran (Australia) 415
Lamotrigine substitution study: evidence for synergism with sodium valproate?
M.J. Brodie, A.W.C. Yuen and 105 Study Group (UK) 423
Increased susceptibility to tetanus toxin-induced seizures in immature rats
A.E. Anderson, R.A. Hrachovy and J.W. Swann (USA) 433
Disinhibited in vitro neocortical slices containing experimentally induced cortical dysplasia demonstrate hyperexcitability
S.N. Roper, M.A. King, L.A. Abraham and M.A. Boillot (USA) 443
A double-blind controlled clinical trial: oxcarbazepine versus sodium valproate in adults with newly diagnosed epilepsy
W. Christe, G. Krämer, U. Vigonius, H. Pohlmann, B.J. Steinhoff, M.J. Brodie and A. Moore (Germany, Switzerland, UK) 451

Short communication
Wada memory and timing of stimulus presentation
D.W. Loring, K.J. Meador, G.P. Lee, M.E. Nichols, D.W. King, A.M. Murro, Y.D. Park and J.R. Smith (USA) 461

Corrigendum
Corrigendum to "Conference Report. Progress report on new antiepileptic drugs: a summary of the Third Eilat Conference"
M. Bialer, S.I. Johannessen, H.J. Kupferberg, R.H. Levy, P. Loiseau and E. Perucca (Israel, Norway, USA, France, Italy) 465

Author index 467
Volume contents 471
